

## **Alexander's Story**

I don't want to talk about my heart because if I did it only would make things worse. It would be better that I didn't talk about it too many times so I can forget. Each time I speak about my heart problems I get chest pains.

Well, I was very ill and because my lungs were so bad I couldn't have a much needed operation on my heart because I would have died on the operating table. My doctors told me that they needed to get my lungs better first.

I tell you one thing:" It is in the hands of God".
